its gross irrigated crop area of 82.6 million hectares(215.6 million acres)is the largest in the world.

india is amongthe top three global producers of many crops, including wheat ,rice,pulses,cotton,peanuts,fruits and vegetables.

according to the world bank,india is a golbal agricultural power house.

its the words
largest
producer of
milk, pulse
and spices.

1.1 agriculture plays a vital role in indias economy

54.6% of the total work forcs is engaget in agriculture and allied sector 17.8% of the countrys gross valu added(GVA).

largest area under wheat.rice and cotton.

second largest producer of rice,wheat,cotton.sugarcane,formed fish, sheep &goat meat,fruit vegetables and tea.

although agricultural and allieds sectors are contributing about 17.5-18 per cent to the countrys GDP.

higer than other sectors, the situation of the formers is not as good.

FARMER

the persona

It isn't just the national capital undergoing heatwaves -it is now clear that india is experiencing a shift of seasons.

the symptoms
are extreme
weather even
reported
throughout the
country.

the people engaged in the service sector,he said.

indians agriculture is composed of many crops with the formost food stables being rice and wheat.

many formers across
the country lost out
and even had to resow, due to
excessive moisture
in their fields.
